

Basic Course for Principles of Infection Prevention and Control

Presented by the Northeastern Infection Control Educators and HRET-NJ

Dates: Available online starting October 18, 2021 and **must be completed** by December 17, 2021.

NEW JERSEY HEALTH RESEARCH EDUCATION TRUST AND Northeastern Infection Control Educators (NICE) ARE EXCITED TO PROVIDE THIS ON-DEMAND WEB-BASED EDUCATIONAL SERIES JOINTLY.

Due to the uncertainty of the Fall 2021 Covid-19 and Influenza activities, this course is being offered online.

Description: This course is designed to prepare the new Infection Preventionist or person responsible for Infection Prevention and Control to perform the duties required in various healthcare settings.

Learner outcomes include:

1. Identify the modes of transmission, incubation periods, host resistance, and susceptibility to various infections and infectious diseases.
2. Implement appropriate measures to prevent the spread of infection.
3. Discuss governmental regulations and standards which govern infection prevention practice.
4. Define criteria for identifying healthcare-associated infections.
5. Describe the processes used in sterilization, disinfection, and sanitation in healthcare facilities.
6. Present the management and communication skills necessary for the coordination of an effective infection prevention program.

Registration is open from August 18 2021, to October 8, 2021. Register at: [NICE | 2021 Basic Course for Principles of Infection Prevention and Control – October 2021 – elearningconnex](#)

Cost: \$350.00

A partial list of topics:
