- DEA form 41
 - Must retain 3 copies

Look in your Sharps Container!

GOOD JOB!

Not so good

Ahhh the things you will see...

Sooo many things

Thank you, Lisa, Peggy and HCS

Operating room/procedure rooms

- Looking for opened vials
- Properly disposed of medications
- Possibly re-using Single dose vials
- Saving partially used medications for multiple cases
- Pre-Drawn syringes
- Nerve stimulators in pacu & Each OR
- Speaking to physicians

Code Cart/MH

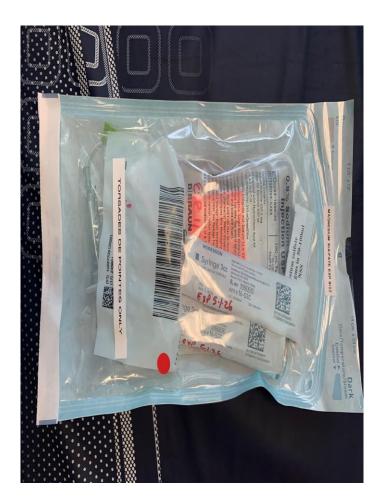

- Must have breakaway locks
 - Should be checked regularly
 - Keep filter needles/straws next to glass ampules
 - Verify quantities on the content list vs. actual
 - Par levels must be established by the Medical Board
 - Confused Med List
 - Defib into emergency outlet
 - Backboard/Oxygen
 - Labels!!!!

Pictures!

Portable Ventilator

Malignant Hyperthermia

- Correct amount of sterile water for Dantrolene
- Extended expiration dates
- MH posters
- Malignant hyperthermia is considered a code situation
- Enough Syringes

TIP - Consider using a local pharmacy which will break up large quantities of rarely used medications (amiodarone, abbojects)

Federal documentation Requirements

- Comprehensive medical h&P
- Pre-surgical assessments update of the H&P upon admission, and assessment for the risk of the procedure and anesthesia;
- Documentation of properly executed informed patient consent;
- Findings and techniques of the operation, including complications, allergies or adverse drug reactions that occurred

- Orders signed by the physician for all drugs and biologicals administered to the patient
- Documentation of adverse drug reactions, if any
- Documentation of the post-surgical assessment of the patient, including for recovery from anesthesia
- Documentation of reason for transfer to a hospital, if applicable;
- Discharge notes, including documentation of post-surgical needs
- Discharge order, signed by the operating physician.

New Jersey Specific documentation

- A medication sheet indicating at least the name, date, dosage, and duration of all medications prescribed.
- A record of medications administered, including the name and strength of the drug, date and time of administration, dosage administered, method of administration, and signature of the person who administered the drug.
- Instructions given to the patient and/or family for follow-up care (Discharge instructions)
- Discharge summary sheet containing the patient's name, address, dates of admission and discharge, and a summary of the treatment and medication rendered during the patient's stay.

- In-servicing
- Policy review
- Plan of correction state inspections
- Recall & Shortages
- Diversion investigations
- Anything pharmacy related questions
